

The Canada Infrastructure Bank (CIB) is an impact investor developing the next generation of infrastructure Canadians need. We bring businesses, investors, Indigenous communities and governments together to help deliver outcomes like sustainable economic growth, connected communities and energy security and competitiveness.

New this quarter

As of March 31, 2026, the CIB had reached financial close on 112 projects, with one new loan in Q4. 90 projects are under construction and 13 have been completed.

Completions this quarter

Manitoba Fibre

Digital Infrastructure and AI / Manitoba

The Manitoba Fibre project now is complete with more than 2,657 km of fibre-optic cabling deployed across Manitoba. Our \$164M loan in partnership with Valley Fiber Limited and DIF Capital brings high speed internet access to more than 53,000 households in underserved regions, enabling access to remote education and health care.

Port Stalashen Wastewater Treatment Plant

Enabling Housing Supply, Indigenous Infrastructure / shíshálh Nation, Sechelt, British Columbia

The Indigenous-owned and operated Port Stalashen Wastewater Treatment facility in Sechelt, BC, is complete. Our \$6.4M loan in partnership with the shíshálh Nation Government District was critical to helping the community replace aging infrastructure, increase wastewater treatment capacity and provide economic and environmental benefits to the Nation.

Note: Figures based on YE 2025-26 (unaudited, April 1, 2025 to March 31, 2026), with pending project announcements in cooperation with our partners. Some CIB projects are located in multiple provinces or have the potential to be located Canada-wide.

Project highlights

Nouveau Monde Graphite

Trade and Transportation, Indigenous Infrastructure / Quebec

The CIB has executed an agreement with Export Development Canada and Nouveau Monde Graphite to support the next phase of the Matawinie Mine in Quebec. The loan will advance a project which supports economic growth and unlocks opportunities in Canada's critical minerals mining sector and related supply chains.

Projects completed

- » Bekevar Wind Power
- » Benjamins Mill Wind
- » City of Edmonton Zero-Emission Buses
- » Darlington Small Modular Reactor phase 1
- » Deerfoot and Barlow Solar
- » Enoch Arena Road
- » Manitoba Fibre
