1. Introduction

The *Access to Information Act* (Canada) (“**ATIA**”) gives Canadian citizens, permanent residents and any person or corporation present in Canada a right to have access to records of government institutions that are subject to the ATIA, subject to certain specific and limited exceptions.

This report is prepared pursuant to subsection 72 of the ATIA and is tabled in Parliament in accordance thereto. It covers the reporting period from June 22, 2017 to March 31, 2018 (the “**Reporting Period**”).

2. Structure

(a) About Canada Infrastructure Bank

Canada Infrastructure Bank (“**CIB**”) is a new innovative financing tool to help build more infrastructure Canadians need by making public dollars go further. As a Crown corporation, the objective is to use public support to mobilize private sector and institutional investment into revenue-generating infrastructure projects that are in the public interest, and to advance a new partnership model, where appropriate, that can transform the way Canadian infrastructure is planned, funded and delivered.

Since the *Canada Infrastructure Bank Act* established CIB on June 22, 2017, significant progress has been made over the first months of its operations, including carrying out the start-up activities listed in the initial corporate plan approved in July 2017. Under the leadership of the Chair of the Board, with the support of the board of directors appointed in November 2017, accelerated progress was made to begin operations by the end of 2017 and CIB has continued to grow its capacity and capability to set the foundation for the long term.

The mission of CIB is to work with provincial, territorial, municipal, federal, Indigenous and private sector investor partners to transform the way infrastructure is planned, funded and delivered in Canada by:

- (a) Engaging private sector partners early in the planning and design process;
- (b) Advancing revenue-based business models, where appropriate; and
- (c) Exploring new and innovative approaches to project finance and delivery.

Innovative financing available through CIB provides an optional tool for government sponsors to further the reach of government support directed to public infrastructure and advance models where users or beneficiaries contribute to funding the project, where it makes sense to do so.

CIB’s vision is to help public dollars go further by crowding-in and mobilizing domestic and global private sector and institutional investment to free up government resources for other infrastructure priorities, and by adopting a new model of partnerships to build public infrastructure. Through its advisory role, CIB will become a “centre of expertise”, to provide advice to government and private sector partners on projects where private sector investors are making significant investments in revenue-generating infrastructure projects (e.g. fees, tolls, tariffs, land value uplift capture, etc.).

(b) CIB's Mandate

The *Canada Infrastructure Bank Act* sets out CIB's mandate as follows:

The purpose of the Bank is to invest, and seek to attract investment from private sector investors and institutional investors, in infrastructure projects in Canada or partly in Canada that will generate revenue and that will be in the public interest by, for example, supporting conditions that foster economic growth or by contributing to the sustainability of infrastructure in Canada.

Parliament has authorized \$35 billion over 11 years, as needed, and the requisite authorities to participate in complex infrastructure deals in new and innovative ways.

(c) Organizational Structure

CIB does not have resources dedicated to ATIA. CIB resources in charge of the administration of the ATIA during the Reporting Period worked thereon on a part-time basis.

Requests received under the ATIA were processed under the direction of the Chair of the Board, in her role as Interim Chief Executive Officer. Procedures are in place for directing all formal access requests to the CEO in order that they be processed in accordance with the provisions of the ATIA.

External legal counsel and staff at the CIB Transition Office provided support in the analysis of the sole request received during the Reporting Period.

3. Delegation Order

Pursuant to section 3 of the ATIA, CIB's Chair of the Board is designated as "head" of the institution. The Chair of the Board is responsible for administering the ATIA. The Chair of the Board did not delegate any of her powers, duties or functions under the ATIA, as permitted under section 3 of the ATIA, during the Reporting Period.

4. Highlights of the Statistical Report

CIB received one request under the ATIA during the Reporting Period. That request was withdrawn by the requestor when advised that there was no information to disclose as CIB had not yet commenced operations. No requests were transferred to or from CIB.

5. Training and Awareness

No formal training activity was undertaken during the Reporting Period. However, the team members kept apprised of ATIA developments through consultation with the CIB Transition Office, external legal advisors and independent learning.

6. Policy, Guidelines, Procedures and Initiatives

CIB did not implement any formal policies, guidelines, procedures or initiatives during the Reporting Period. CIB is developing its ATIA program as part of its ongoing start-up activities. The program is expected to be fully developed and implemented before the end of 2018 and will comply with the Interim Directive on the Administration of Access to Information Act of the Treasury Board of Canada Secretariat.

7. Summary of Key Issues and Actions Taken on Complaints or Audits

No complaints were received by, and no audits or investigations were conducted against, CIB during the Reporting Period.

8. Monitoring Compliance

No monitoring of access to information requests was conducted or necessary during the Reporting Period.
